

BÖHMISCHE MUSIK

1902.

Presented to

Reserv. Procur. & Bur. 1800.

Spurwick

By The Burmanofls Works
of The Leeds Fireclay Cord
Burmanofls
Leeds.

2

The illustrations on the following pages show a few examples of work recently completed by the Burmantofls Works.

In all these instances the work has been carried out to the designs and instructions of the Architect for the building and an expression of thanks is due to them for their courtesy in allowing their works to be photographed and here reproduced.

The various illustrations have been chosen with a view to drawing attention particularly to the fact that with Burmantofls Faience, Vitreous Glazed Terra Cotta & Glazed Bricks, a permanent colour decoration, either simple or elaborate, can be obtained in practically any scheme of colour, with the additional advantage of possessing at the same time perfect sanitary conditions.

The whole of the Burmantofls Specialities are produced at the Burmantofls Works, which fact is of considerable advantage in the consideration and carrying out of a successful scheme of decoration.

Burmantofls Faience is not supplied through any Dealers, Merchants or Agents.

Carefully considered coloured schemes and estimates are submitted for Architects' approval, and all further necessary technical details can be prepared by the experts employed at Burmantofls.
